Customer Reviews, including Product Star Ratings help customers to learn more about the product and decide whether it is the right product for them. To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness. Learn more how customers reviews work on Amazon 1. American Board of Surgery. ABS In-Training Examination. Philadelphia, PA: Available at: . Accessed August 30, 2019. [Google Scholar]2. Once you've figured out your reading program, and I would reference you to my Top 10 Habits to Crush Surgery Residency post, I would suggest you choose a few very yield yield resources.Resource #1 - The ABSITE Review by Steven M. FiserThis book needs to be in the bag or pocket of every surgery resident who wants to excel on the ABSITE exam. I can't remember a time where I walked out of the exam and had a question that wasn't in this book. It has it all. I'm convinced that, particularly for the ABSITE exam, if you knew every single detail in these dense 328 pages you would rock the ABSITE. I'm talking >95% rock the ABSITE.When I was a resident I would read through this book a few times, during the fall before the exam, and the day before the exam I would take the chapters and spend 5 minutes reading through each chapter, setting an alarm. The book as 44 chapters to I would make sure I'd get through the whole book inn 220 minutes or about 4 hours. As long as you've read it a few times your highlights and notes will be familiar to you. In addition I would fill the ledgers with notes from the Score and SESAP questions which was also helpful.Resource # 2 - SCOREThe SCORE system, as I referred to above is probably the best resource you're going to find for comprehensive review for the ABSITE and ABS Board Exams. I say comprehensive because the chapters are quite detailed and not very high yield. All of the information is there for all of the questions and it's created by the ABS so its intention is to be a resource of all "need to know" information in general surgery. That being said, the real gold of SCORE is the question bank. Definitely check it out and if your program doesn't have it, make sure your program director has at least thought about making the investment. it's definitely a good one!Resource #3 - SESAP QuestionsThese questions in the SESAP 16 review book are definitely the best resource out there for ABS Board Preparation. The questions are a little more detailed than the question in the SCORE question bank and seem to be geared for the senior residents and recertifying surgeons. Almost every questions is "the next step in management" instead of some of the SCORE questions or ABSITE questions which may be looking at "What is the SVR and CWP in neurogenic shock?"Definitely check out the SESAP questions, it's a great investment for you and your program.
